

兔抗 BCOR 多克隆抗体

中文名称：兔抗 BCOR 多克隆抗体

英文名称：Anti-BCOR rabbit polyclonal antibody

别名：MAA2, ANOP2, MCOPS2

抗原：BCOR

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human, Mouse

相关类别：一抗

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	The protein encoded by this gene was identified as an interacting corepressor of BCL6, a POZ/zinc finger transcription repressor that is required for germinal center formation and may influence apoptosis. This protein selectively interacts with the POZ domain of BCL6, but not with eight other POZ proteins. Specific class I and II histone deacetylases (HDACs) have been shown to interact with this protein, which suggests a possible link between the two classes of HDACs. Several transcript variants encoding different isoforms have been found for this gene. A pseudogene of this gene is found on chromosome Y.
Applications:	ELISA, IHC

Name of antibody:	BCOR
Immunogen:	Fusion protein of human BCOR
Full name:	BCL6 corepressor
Synonyms:	MAA2; ANOP2; MCOPS2
SwissProt:	Q6W2J9
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human breast cancer
IHC Recommend dilution:	100-200
